

TOPICS

Technical, commercial, ecological, political & ethical issues of insect utilisation will be discussed.

Insects production systems

- Rearing substrate optimisation
- Established production systems
- Mass rearing systems, industrialisation
- Automation

Application of insects as feed

- Nutrient composition
- Use for pets, in aquaculture and for farm animals
- Feed safety

Utilisation of insects as food

- Processing and fractionation
- Use in gastronomy and food retailing
- Food safety

Evaluation of the use of insects

- Consumer acceptance
- Ecologic and economic assessment
- Status of legislation
- Ethical issues

Non-food applications of insects

- Insect biotechnology
- Biopolymers
- Waste management systems

KEY FACTS

Important deadlines

Early bird registration deadline	July 7, 2017
Abstract submission	April 30, 2017
Acceptance notification	June 15, 2017

Registration fees

Full registration	390 €
Early bird registration	310 €

Call for oral presentation or poster

All participants are invited to submit their abstracts and indicate their preferences for oral or poster presentation.

For submitting an oral presentation or poster, please register first online: www.insecta-conference.com

Young scientist award

Young scientists (student or PhD student), aged 35 and below, who are actively engaged and aim for an oral presentation, get the opportunity to present their scientific potential.

INSECTA 2017

2_Hemeta 17219151_c_paulomer_125f

INSECTA Conference 2017 September 07/08 Berlin

jointly organised by

PPM
Pilot
Pflanzenöltechnologie
Magdeburg e.V.

WELCOME

The 3rd international INSECTA Conference 2017 will be held in Berlin on September 7/8, 2017.

The conference aims to give an overview of the state-of-the-art of insect technology and the prospects and constraints of the use of insects as food, feed and non-food in Europe and worldwide.

INSECTA Conference 2017 will once again provide ample opportunities for a lively exchange on insects as food, feed and non-food for scientists, representatives of related industries, policy makers, media and consumers.

It will be jointly organised by Leibniz Institute for Agricultural Engineering and Bioeconomy (ATB) and PPM Magdeburg.

We are looking forward to meet you in Berlin!

Convenors

Dr.-Ing. Oliver Schlüter - ATB, Germany
Dr.-Ing. Birgit Rumpold - TU Berlin, Germany
Dr.-Ing. Frank Pudiel - PPM, Germany

KEYNOTES

Prof. Dr. Harry Aiking Institute for Environmental Studies (IVM-VU)

Dr. Aiking was Associate Professor in Chemistry and Food at the Vrije Universiteit in Amsterdam. He has been long-standing member of the Working Group Sustainable Food Production of 'Food For Life', a European Technology Platform.

Prof. Dr. Thomas Potthast holds the chair for Ethics, Theory, and History of the Biosciences and is executive director of the **International Centre for Ethics in the Sciences and Humanities (IZEW)** at the University of Tübingen.

Prof. Dr. Andreas Vilcinskis is coordinator and spokesman of the **LOEWE Center of Insect Biotechnology** since 2014. He is Professor for Applied Entomology and Director of the Institute for Insect Biotechnology at the University of Giessen. He is head of the project group „Bio-Resources“ at the Fraunhofer Institute for Molecular Biology and Applied Ecology (IME).

VENUE

The symposium will be held at **Technische Universität (TU) Berlin**.

Foto: TUBerlin/PR/Jacek Ruta

Address:

Main building of Campus TU Berlin
Rooms: H1028/H1029/H1012
Straße des 17. Juni 135, 10623 Berlin - Germany

As one of the highlights of the first symposium day we cordially invite to the dinner event in the **Museum für Naturkunde**.

Brachiosaurus, Foto: Antje Dittmann/mfn

The dinner event is included in the registration fee. We kindly ask you at the registration process to indicate, if you will participate in the event.
